

Kathleen Dul Aznavorian'64,
President, Fox Hills Golf Club

Where is your hometown? Current residence? Any personal family information you care to share (children, pets, hobbies, talents etc).

I grew up in Dearborn Heights, and am married with two children.

How/why did you decide to attend Mercy?

I had friends who went to Mercy so it was the obvious choice for me, and felt like the right choice.

What is your fondest Mercy memory?

Just the general sisterhood. I thought it was especially funny that I am not very creative, not an artistic bone in my body and yet my senior year I found myself placed in Sister Mary Ignatius' homeroom! She was a well-loved and very talented Art teacher, so the irony wasn't lost on me.

What activities were you involved in as a Mercy student? Favorites?

I was involved in the National Honor Society, but my senior year I was honored and surprised when my peers elected me the President of the Future Teacher's Club.

Education/career path after graduating from Mercy?

I went to the University of Detroit Mercy and received a degree in Accounting. I spent time as a certified public accountant for my mother's manufacturing company. I've always been involved on the side with the golf course business that my father purchased. Now my sister Sandy and I run the family business.

What advice would give to future, or current, Mercy Girls, as we look forward to celebrating our 70th anniversary in the 2015-2016?

My advice is to appreciate the gift of a single sex education. Use the opportunity to find who you are first, and you're your own expression of yourself, without the distraction of boys.
