

ACT Preparation Course

This 4 session course will prepare students for the June or July 2019 ACT Exam.

A note to students who have taken the course previously: This course is designed to supplement the previous course. We will be reviewing the strategies and techniques, but we're going to be actually practicing sections of ACT tests and then reviewing them in order to prepare for the June or July ACT.

Course Schedule: 11am to 1pm

Class 1 (Monday, June 3rd) ACT English

The English class will review English grammar and usage commonly tested on the ACT English test. This session will be run as a lab. We're going to actually practice English passages in class and then discuss the correct answers. Our goal is to get the students to learn the common questions that appear on the english test by taking the test apart

Class 2 (Tuesday, June 4th) ACT Math (Don't forget a calculator!)

The Math class will focus on the math skills most often tested on the ACT. We're going to actually practice portions of math tests to demonstrate the rules and formulas most commonly tested. This will also allow us to point out certain strategies applicable to a multiple choice math test.

Class 3 (Wednesday, June 5th) ACT Reading

This reading class will focus on experimentation. We're going to actually practice the different types of reading passages on the ACT and encourage kids to try different methods. In addition, we'll discuss the common themes and questions the ACT typically uses. The goal is to get a handle on the timing and what reading method works best.

Class 4 (Thursday, June 6th) ACT Science

The ACT Science test is actually a reading test; science facts and data are given in each passage. Therefore, this class will focus primarily on various passage formats, question types, and timing strategies. We will be practicing and then discussing several science passages.

- The cost of the program is **\$100 for students who have NOT previously been enrolled** and **\$25 for any student who has enrolled previously**. All course materials as well as supplementary materials are included.
 - All sessions will be held at Mercy High School in **room N2**.
 - Students should bring a **calculator and pencil** to class.
 - Any questions about the course should be directed to Scott Allen at College Quest via email: SAllen2556@gmail.com or through our website at www.collegequestmi.com
 - Please be aware that the nature of this course allows no tolerance for disruptions in class - we have a particular aversion to students "texting" in class, so beware!
-

To Register: Fill out this form and drop off at the Mercy counseling office. Make check or money order for **\$100 for new students or \$25 for previously enrolled students payable to College Quest**.

Registration **deadline is Thursday, May 30, 2019**.

Due to the nature of this particular course, makeups will NOT be available.
